

Collano HP 2000

Release Paste

Characteristics

Base

Waxes dissolved in mineral oil, without silicone

Form

Pasty consistency

Storage

18 months in unopened original packaging at 15–25 °C

Application area and materials

Prevents adhesion to presses, coating equipment and tools. For further information on cleaning and adhesion, please refer to the flyers on "Pretreatment and Cleaning of PUR Adhesives".

Application

Regularly brush Collano HP 2000 on machinery components or fittings that come into contact with adhesives. Seal applicator nozzles shut with Collano HP 2000 to temporarily prevent curing. Repeated order improves the effect. Do not mix with adhesive.

Safety

The wearing of protective gloves and safety goggles is recommended while handling the product. Follow the instructions on the Safety Data Sheet.

Packaging

Plastic bottles 800 g

Guarantee

We guarantee the consistency and faultless quality of this product, manufactured in accordance with ISO quality standards, which has been developed on the basis of our long standing experience with the recommended applications under the specified conditions. Material, processing, and application conditions may significantly influence product properties. Pre-application tests by the user are therefore essential. For non-specified applications or deviations in application conditions, we recommend that Collano's technical support service be consulted first. Collano's general sales and delivery terms and conditions shall apply.
